

## To our Supporters:

We are writing to you in hope that you will participate in our First Walk-a-thon. Please join us on a 3 mile walk at James C. Nelson Park located on 15 Mile Road in Sterling Heights (between Ryan and Dequindre) on Saturday June 28, 2008. The Walk begins at 9:00A.M.

The Conductive Education Center of Metro Detroit (CECMD) - - a 501c(3) non-profit organization - - was incorporated in June 1999 a group of parents of children with cerebral palsy and other motor disorders. They felt their children would benefit from Conductive Education. They refused to allow the medical insurance industry to dictate the amount of therapy their children would receive. The result was the CECMD, which has been providing Conductive Education, at no charge, to children since September 1999. The gains seen are positively life changing. Currently, the organization provides financially for a facility, the conductor's salary, assistant's salary, insurance, equipment and various other expenses through the fund raising efforts of the core group of parents and board members

**I have attached the Registration Form and pledge sheet for the walk, please pass it forward to at least 5 other people.** In addition, you can retrieve the registration information from our website @ [www.cecemd.com](http://www.cecemd.com) , or feel free to contact me via the information listed below.

If you know of a company that would be interested in sponsoring the race day shirt, \$100.00 will get their name, address and phone number on the back of the shirt, please let me know.

Your support of this inspirational walk is greatly appreciated. Together we will walk to raise funds to support our Conductive Education summer therapy program . . . a program that helps our special children take one step closer to independence, fosters education, and inspires our children to believe anything is possible.

Once again, thanking you in advance for your continued support!

Dawn Sunderlik - - a Founding Parent of CECMD, and mother of Zachary Sunderlik, a student of CE
